## Industry

### HIGH-TECH TAGS WITH TOP BARCODE INSCRIPTION

The design and materials of the Colour tags are co-ordinated with the wood processing industry. These tags are printed individually and/or with barcode. As materials, we use the best quality technical plastics. The labelling is resistant to abrasion.

LUMINOUS GREEN   TYPE 02	DESCRIPTION	*	TECHNICAL DESCRIPTION
	<ul style="list-style-type: none"> <li>■ for frozen hardwood</li> <li>■ with barcode 128 or 2/5 interleaved – individual printing available</li> <li>■ boil-proof during the veneer process</li> <li>■ highly visible on wood</li> </ul>	WE	<p>Extremely durable plastic in radiant GREEN with a highly wear resistant, custom tailored print in black.</p> <p><b>TIP:</b> This tag is suitable for very cold regions and is the best recommendation for valuable veneer logs.</p>
LUMINOUS GREEN   TYPE 04	DESCRIPTION	*	TECHNICAL DESCRIPTION
	<ul style="list-style-type: none"> <li>■ for frozen hardwood</li> <li>■ with barcode 128 or 2/5 interleaved – individual printing available</li> <li>■ boil-proof during the veneer process</li> <li>■ highly visible on wood</li> </ul>	WE	<p>Extremely durable plastic in radiant GREEN with a highly wear resistant, custom tailored print in black.</p>
LIGHT BLUE   TYPE 02	DESCRIPTION	*	TECHNICAL DESCRIPTION
	<ul style="list-style-type: none"> <li>■ for frozen hardwood</li> <li>■ with barcode 128 or 2/5 interleaved – individual printing available</li> <li>■ boil-proof during the veneer process</li> <li>■ highly visible on wood</li> </ul>	WE	<p>Extremely durable plastic in radiant LIGHT BLUE with a highly wear resistant, custom tailored print in black.</p>
LIGHT BLUE   TYPE 04	DESCRIPTION	*	TECHNICAL DESCRIPTION
	<ul style="list-style-type: none"> <li>■ for frozen hardwood</li> <li>■ with barcode 128 or 2/5 interleaved – individual printing available</li> <li>■ boil-proof during the veneer process</li> <li>■ highly visible on wood</li> </ul>	WE	<p>Extremely durable plastic in radiant LIGHT BLUE with a highly wear resistant, custom tailored print in black.</p> <p><b>TIP:</b> Limit the barcode to 10 digits. For even better scanning results pick black or white tags from the Signumat Industry Line.</p>
