

# FORESTRY ENTERPRISES AND MUNICIPAL ADMINISTRATIONS

WinforstProNG is a modular forestry operations management and is suitable for every type of forestry operation. The forestry operation core modules form the basis of your timber business. They support the management in all forestry and business administration issues. Mobile apps facilitate the daily tasks of precinct managers.

- Hierarchical structuring of the **MASTER AND RECORD DATA**
- Representation of **FORESTRY OPERATING PLANT**
- Processing of **TREASURY, FOREST and WORKSMEASURE**
- Contract control with **ACCOUNTING AND ACCOUNTABILITY MONITORING**

- Photo-optical piece count and cubage determination
- GPS localization
- Map support
- Timber trade compliant (RVR, ÖHU)
- Different import formats (ELDAT Classic, ELDAT SMART, FHP)
- Timber weight with dry content
- Conversion factors to all units of measurement
- Quantity units RM, SRM, FM, ATRO, LUTRO
- Energy calculation in MWH
- Management of different measurement types such as treasury, harvester, forest and worksmeasure
- Provisioning of timber with map support
- Logistics modules
- Transport and removal ticket

## INVOICING

Logs measured at the sawmill are imported via standard interfaces (FHP, ELDAT, ELDAT-SMART). The timber data is invoiced with the modules "Timber sales" and "Timber credits".

- Contract allocation with quantity control
- Making offers to the buyers
- Invoicing from offer
- Pricing via contract module
- GoBD compliant document management
- Receipt and document storage
- Send receipts as PDFs via email
- Service credit notes
- SEPA export for bank transfer
- Invoice journal with due date monitoring
- Guarantee monitoring

## EVALUATIONS AND INTERFACES

Documents can be transferred to FIBU systems such as BMD, DATEV, SAP etc. Different info centers provide the collected data in an easy to understand way. Using data bars, colors and conditional formatting, WinforstProNG focuses on the essentials so that you can make the right decisions.

- FiBu and SEPA interfaces
- Individual statistics and reports
- Contribution margin accounting
- Invoice journal
- Evaluation for forestry cost-performance accounting

**MORE THAN 55 MILLION SOLID CUBIC METERS OF TIMBER PER YEAR UNDERLINE THE EFFICIENCY OF WINFORSTPRO!**
